

Join the Industrial User Club of Photonics 4 Life

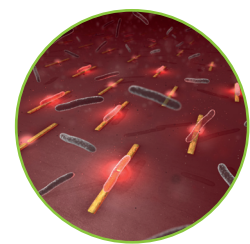

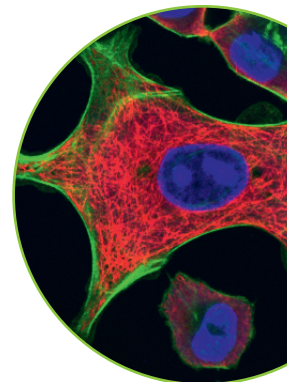

Photonics 4 Life (P4L) is the EU-funded Network of Excellence on Biophotonics, the technology that deals with the interaction of light and biological matter.

P4L gathers the human resources, the infrastructure, the capabilities, the expertise and knowledge of 13 top-research partners in the field of Biophotonics, coming from 10 different EC member states.

Beside structuring and integrating Europe's Biophotonics R&D activities, P4L also wants to link the expertise of these research institutes with SMEs and large companies, in order to stimulate Biophotonics innovation. P4L wants to do so by learning about the industrial needs as well as by engaging with industry in projects and transferring R&D results to industry.

P4L's Industrial User Club (IUC) is the short link between industrial companies and the academic partners in P4L, as

- it is the gateway to the biophotonics knowledge present in P4L's database;
- it stimulates the dialogue between industry and academia in biophotonics;
- it enables companies to take advantage of the synergies, produced by the network;
- being a partner in the IUC, companies will easily find – among several hundred researchers in P4L – experts in biophotonics which are prepared to jointly tackle their challenges in technology, in biophotonic methods, in product development, and also in clinical applications.

Level 1 member

Benefits:

- Access to the P4L knowledge database with all the information on biophotonics and on the expertise and collaboration opportunities in P4L, as well as on related methodologies and technologies, continuously gathered by the network and provided through its knowledge management centre
- Describe your company profile in the P4L newsletter

Request: to fill in at least 1 item in the P4L database to show the expertise and competences of your company

Level 2 member

Benefits:

- All benefits of a level 1 member
- Receive priority assistance in locating the most appropriate partner(s) in P4L for contract research and for setting up contract work
- Enhance your visibility and PR through workshops and exhibitions organized by P4L
- Get reduced registration rates for P4L's industrial workshops
- Description of your company's profile in the P4L newsletter (<http://industry.photonics4life.eu/Industry/Newsletter>)
- An opportunity to advertise your products on the P4L Portal (<http://industry.photonics4life.eu/>) through your company logo and a link to your company website
- Display your company's job offers on the P4L Portal and reach more than 300 qualified researchers
- Nominate a person to have a vote in the election for P4L's external advisory board

Request: to pay a membership fee, based on the number of employees in your company or department

- <10 Employees : 500€
- 10–250 Employees : 1200€
- >250 Employees : 2000€

If you would like to join the P4L IUC, please consult the following link

www.industry.photonics4life.eu/Industry/Memberships/How-to-join

or contact the P4L IUC officer.
